Water into wine  
Food for the hungry, sight for the blind  
Steps for the lame, living from the dead  
"Lazarus come forth," He said  
Storms at sea at calmed by His word  
He told them He'd rise from the dead  
In three days, and He did it  
What more can you need?  
It's truer than history  
That should be all you need

But you want to see a miracle

I was alone, living for nothing  
I needed to die  
God took my heart, showed me His love  
He gave it all to me  
God's love filled me, changed me inside out  
If that's not a miracle tell me what it is  
He did it for me, He did it for free  
If you need to see some proof  
That should be all you need

Two thousand years of signs and wonders  
All for you to see  
Your miracle waits for you  
That will be all you need

But you want to see a miracle
