So much further than you know  
Through a world of ice  
I have carved my way to you  
Pushed and pulled by these lies  
These lies  
These lies

So much further than you know  
Through a world of ice  
I have carved my way to you  
Pushed and pulled by these lies  
These lies  
These lies

Only to stay closer now,  
Come and lick my wounds  
Drink these tears I saved for you  
Perished like the Grim's appeased  
But I'm so scared inside  
See the hangman missing one more line

Through this world of ice  
I call your name again 'cause I'm here without you  
I'm here without you  
Distance to decide from which I cherish you

Out of fear  
Out of fear  
Out of fear

Can you tell what's right from wrong  
Would the trouble end  
Meld the masses in return  
Light the beacon just for me, so I might find you there  
Send the senseless signal out of here

Through this world of ice  
I call your name again 'cause I'm here without you  
I'm here without you  
Distance to decide from which I cherish you  
Out of fear  
Out of fear

Through this world of ice  
I call your name again 'cause I'm here without you  
I'm here without you  
Distance to decide from which I cherish you  
Out of fear  
Out of fear...
