"When You Wake Up"

Visit "[When You Wake Up](#)" on MotoLyrics.com

When you wake up when I wake up alone do you feel
anything at all
When you get up I don't wanna move at all do you still
taste the alcohol
What a way to start the day so sick of looking at the
walls
And you give up just give me another shot you'll take
another shot
I hope you I hope you're not talking to me hey
Did you really just say what I think you said
Did you just really do what I think you did
What exactly are you trying to say here
Do you think I have some kind of problem
You are so oblivious
