

Plus One "Start To Fly"

Visit "[Start To Fly](#)" on MotoLyrics.com

You've had your taste of all that's sweet
Now you're through and what does it mean
You've sought the truth, found a lie
You've given up but it doesn't make it right

You wanna go, I know you wanna leave
Ya' gotta go, farther than you see

[Chorus:]

If you just look past your scars
You will see it's not that far
Don't close your mind
Let God inside
Begin to breathe, Start to fly
Start to fly

Wake up from your sleep,
start your dream
It's okay to believe what you don't see

Give it away, your heart
won't break
This is a chance that you're gonna have to take

You wanna go, I know you wanna leave
Ya' gotta go, farther than you see

[Repeat Chorus]

Just close your eyes, hold on tight
You don't have to be afraid
He is with you all the time
You'll be free, full of peace
And everything that you need,
it is right there can't you see

[Breakdown]

[Repeat Chorus]
