Here's a beat It is a solid beat And no one's paying attention so I'm free to speak Something passionate will work real well But I am bored so bored, yeah, it's easy to tell But I don't mind that it's the same old shit 'Cause innovation's really hard to sell So come on!

Well it's the second verse now And I really like how this sounds It's got all the right elements that I like It's that four / four on the floor That keeps me moving all night long And that chord progression I've heard it before It's the same one in every song But this message Really throws me off I can't sing along to this at all

Get it through I'll never get through to you I'll never get through to you-ou I'm too wide

Get it through I'll never fit like you do I'll never fit like you do-o But you're too blind So shut up and swallow!

Don't mind me I'm just another face Just turn your head and I will be replaced And don't you worry, I am all alone But you'll never understand You'll never understand You'll never understand You'll never understand You'll never understand

Get it through I'll never get through to you I'll never get through to you-ou I'm too wide

Get it through I'll never fit like you do I'll never fit like you do-o But you're too blind

Get it through I'll never get through to you I'll never get through to you-ou I'm too wide

Get it through I'll never fit like you do I'll never fit like you do-o But you're too blind So shut up and swallow!

Get it through Get it through Get it through Get it through

(So just shut the fuck up and swallow)
