V1

I should have known better than to trust another dime  
like you  
Ya I should have known better now I'm writing love  
letters  
Maybe I might have done it different now my head is  
spinning  
Thought that we were winning but I guess that you were  
fibbing  
And maybe we were sinning but baby we were singing  
Beautiful melodies

I'm so frozen in this feeling  
My soul it needs a remedy  
Baby you left me without meaning

CHORUS

I miss you so much  
So much  
I miss you so much  
Miss You So

V2

I gotta get with it, there's no more living in a fantasy  
And maybe I'll admit it that you were never really right  
for me

I'm so frozen in this feeling  
My soul it needs a remedy  
Baby you left me without meaning  
(I miss you)

CHORUS

I miss you so much  
So much  
I miss you so much  
Miss You So

## BRIDGE

Whoa is me  
Will I ever regret you? Never forget you?  
Everything is reminding me of you  
Whoa is me  
This game is over, you gave up, and left me

Whoa is me  
Another typical story baby I'm sorry  
Give me another chance and I'll show you  
Whoa is me  
My brain is twisting confusing I'm falling

## CHORUS

I miss you so much  
So much  
I miss you so much  
Miss You So
