Yeah, yeah, yea yea

I used to think about love all the time
I didn't question I just went in blind
But then I realized what I was doing
I can't make up my mind

And I wish I could see
All the things you have planned for me
And I know your love
So why am I acting so dumb

I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside
The rush inside
I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside
The rush inside baby

I never knew what I felt for you
I looked in your eyes and saw something new
Girl you're making my heart beat with you
I need to make up my mind

And I wish I could see
All the things you have planned for me
And I know your love
So why am I acting so dumb

I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside
The rush inside
I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside

The rush inside baby

Baby I can feel the rush inside
When you come around
You're making my heart scream
My head falls to the ground
Anything I can do just call
And I'll be there
I would run to the ends of the earth
Just to show you that I care
I can feel the rush
I can feel the rush
I can feel the rush inside baby
I can feel the rush
I can feel the rush
I can feel the rush inside

I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside
The rush inside
I can feel the rush inside baby
I can feel the rush inside baby
All up in my mind going crazy
I can feel the rush inside
The rush inside baby
