I blackout!!  
Don't you put words in my mouth  
Don't try to shut me up  
I'm not about plastic skin  
I gotta get out, gotta get out, in  
What about those things you said to me  
What about the time we've wasted  
Everyday's just like the one before  
Everytime I see your face ..

[CHORUS]

I blackout  
You know I gotta get in  
Just let me in  
You know I gotta get in  
But, I gotta know now, where do I fit in  
I blackout

Don't you tell me what to think  
You'll never know how I should feel  
I see through plastic skin,  
I gotta get out gotta get out, in  
What about the 5 o'clock news  
What about the Sunday paper  
Every day's just like the one before  
Everytime I turn the page ..

[CHORUS]

I can't breathe -  
My heart is freezing  
While we pray  
My soul is packing its bags . and leaving  
Blackout!! What about those things you said to me

I wanna know now where do I fit in?
