come now

broadcast now my cd's in your tape deck  
listen to me drop in like bucky lasek  
cash paychecks my safe sex still triple X  
take a rest my aids test is A plus

i'm the future  
new style digital  
i'm on the old school team  
like a triple beam  
this a take down  
i break down  
you fake clowns  
you hate now  
but wait now  
you face down

politicians and generals

tell me  
how you gonna fight the fucking war from a golf  
course?  
the redneck president is a lost cause  
i know you get real money  
but at what cost?

politicians and generals

yeah it's, easy to watch kids die  
when they not yours  
i've seen this all before  
i've read it all before  
it's 1984
