Give it up smooth  
Stick then I move  
Tryin' to make sense outta of nonsense  
Fool  
Trippin' on life and my situation  
Brothers of earth  
One love-one & 1 nation  
I hear the voices callin' me  
The choices I made were mine  
And I don't mind  
I rise to the top like cream  
Like the phoenix from the blunt ash  
Realizin' my dreams  
Kissin' the pacific sky  
The purple haze brain remain open  
To changin' tides  
I desire knowledge by nature  
Word to aristotle  
My nature's not to hate ya  
So I try to put myself in the chucks of the other man  
Peace to my brother  
Search out my pace in this  
World I discover man  
Damn, check out the colors man  
My eyes are man  
My eyes are opening wide  
My eyes are open  
I see it everyday  
But some things never change-no  
Some people livin' in fear  
Not knowin' about the ten dimensions  
The (hed) nigga reach the point of awakening  
I annihilate nigga who be thinkin' that they can break  
me  
The next brother can do what they want to  
This brother's sites are wide and true  
If a stupid punk sweat me  
The trick ass bitch'll wish  
He never met me  
  
So be warned my scorn is what you saw there  
Be down or be gone

Let's get it on there  
Turn of the century  
Age of the microwave  
One foot on the moon  
But, you can see it gettin' better  
Believe it  
Young people sayin' "they ain't havin' it"  
So? they takin'  
They breakin's  
They tired of the status quo  
Fittin' to rape yo'  
Their eyes are open  
The windows are wide and far  
So what the f...  
Where you goin'  
Where you been  
Where you at  
If I drop the bomb  
Pick it up...  
That sexy little girl  
She had no father figure  
The catholic skirt  
Put a hurtin' on the father's \*? \$\*#  
Table dances-they don't cum cheap  
Dee-eye-see-kaye  
Spells "relief"  
Bring all your daughter to me  
I was a just kid  
I was just living  
It never occurred to me that  
Skin could determine identity  
I was naive you see  
Don't givaf...  
Never did never will  
My eyes are open wide  
Pack skillz then move in for the kill
