Feels like I'm trippin' again
Goin in circles
I'm not so sure where I've been
I'm goin in circles again

This situation is a code red 911
My 411 is I'm coming undone

Feels like the whole world's tweekin'
and I just wanna get my freak in
I just wanna get drunk this weekend
without throwin' up or sleepin' in jail

My life's spinning going out of control
I wanna get out of this hole
It feels like I'm losing it

What's wrong with me?
(I cant find myself)
What's wrong with me?
(I cant find myself)

Looks like they're shutting you in
Why should you take it?
Looks like they're shutting you in
Why should you take it again?

Your situation is a code red 911
Your 411 is you're coming undone

Feels like your whole world's dyin'
and you don't wanna be reminded
You don't wanna hear all this lyin'
You just wanna rewind and try it again

Your life's spinning
Going out of control
You wanna get out of this hole
It feels like you're losing it

Where did I go wrong?

What have I done?

There must be some way out
There must be some way out
There must be some way out
There must be some way out

Can you dig it
Freedom
Can you dig it
Freedom

Fly
Fly
Fly

Where did I go wrong?
What have I done?
