Nobody's waiting for you  
Nobody's home  
Nobody's listening to you  
Cause nobody cares  
They will never change  
They are slowly dying  
They will never go away  
They have nothing to lose

All my people come on  
Choose your side  
You're a long way from home, but not alone

They are afraid of you  
Cause you know their secrets  
I hear them praying for you  
That you disappear  
They are the enemy  
We are the fallen  
Now they have us on our knees  
We have nothing to lose

[Chorus]  
All my people come on  
Choose your side  
You're a long way from home, but not alone  
Keep your head up  
Keep it real  
Stay down  
You're a long way from home  
You're not alone  
I got you

The sky was blood red on New Years Day  
One thousand candles light the way  
Ten thousand souls are restless  
Ten million hungry  
Eat the rich, but pay me!  
In the next episode&  
I load and reload  
It's kill or be killed

Sell or be sold  
In this life, in this time, in my mind  
I gotta stay high, cause I got left behind

[Chorus]

Now who wanna ride with me  
BRING PAIN TO THE POWERS THAT BE  
Young rebel start a riot with me  
Hear me, feel me  
Now who wanna ride with me  
Get buck, get wild with me  
Who will jump into the fire with me  
Hear me, feel me
