Stop talking  
I stopped listening to you  
Stop lying  
I stopped believing in you  
I'm not dreaming  
I'm grounded by you  
I'm not worried  
I just want to forget

I will take you there  
Take you down with me  
I'll give you just what you deserve  
(Nothing, Pain, Sorrow)

Chorus:  
Liberation, where are you?  
Liberation, she'll soon come  
I want revenge, where is she?  
I want your blood, I'm thirsty!

You're dying  
And you don't even know it  
You're losing  
Why should I even try  
It's not funny  
Well don't delude make me sing  
I'm not laughing  
My hatred eats me up inside

I will take you there  
Take you down with me  
I'll give you just what you deserve  
(Nothing, Pain, Sorrow)

CHORUS(x2)

--musical bridge--

CHORUS(x2)
