Hit this lil homey let me get this  
Word out to the mentally gifted  
The truth hurts but I cant keep a secret  
Peep this shit cuz the government leaked it

"I am prepared to state that while i was there  
we saw living bodies..  
dead bodies of entities  
that were not born on this planet...  
We have contact!" - Lt. Clifford Stone

2008 - Anotha fake election  
Anotha fake politician  
Anotha Distraction  
Brought to you by your fake tv station  
#1 Source of manipulation  
#1 source of fake information  
Stand by... Mesmerize the nation  
Lets induce mass hallucination  
Load em all up into the concentration... camps  
Got damn uncle sam  
I'm not just a number - I'm just a man  
I do not like green eggs and ham  
I do not like them sam I am  
Gonna make a stand  
Fight the system and the New World Plan  
Fight the fascists and the hidden hand  
Fight religion and the vatican  
Don't fuck with me cuz  
I don't givafuk about  
Politics  
Terrorists  
Propaganda  
Bitch - Don't you know we much smart than that  
And we've come much farther than that  
We work harder than that  
My people ain't retarded: In fact,  
We cybernetic with 22 genetic strains intact  
Don't fuck with us cuz were sick of your shit  
And were ready to fight for truth and justice  
Are you read to die for this?

Lets get it on!

This kind of trouble no set like rain  
This kind of trouble no set like rain  
Its a survival thing  
This kind of trouble no set like rain  
This kind of trouble no set like rain  
So stay ready

I smell hell  
When im fucking authority  
I forever want my rebel to yell  
Stay ready for the face off  
Dump the black suit muthafucka  
I'm ready to take my cape off  
Cant stop me  
Got a middle finger degree  
Out for everybody to see  
Coincide with the beat  
On point with it  
Spit it and get it out into the ears of the public  
Been ready for change for so long  
Nobody ever gonna tell me  
What went wrong  
Nobody ever gonna tell me  
Why things be  
Pushed under the rug  
Why did they lie to me  
Gonna do what I can  
Straight piss on the man  
Everybody betta understand  
Complete my plan against the grain  
With a gun in my hand  
And show no shame muthafucka  
You in the middle of a mind  
Fuckin' with the cattle patrol  
Fight for the right to  
Battle the mole  
I'm gonna bet the bank that im goin  
Out with a bang  
Muthafucker

Gonna make a stand  
Fight the system and the New World Plan  
Fight the fascists and the hidden hand  
Fight religion and the vatican  
Don't fuck with me cuz  
I don't givafuk about  
Politics
