"Universal Peace"

And where were going to be going
For the next 500,00 years
Yes 500,000 years
Because we are at a time in history
Where one big cycle is closing
And another cycle is opening
The duration of which will be
5,000 centuries on earth
Of unbroken peace
Of universal peace
And at the end of that cycle
We
Our descendants
Will be extraterrestrial visitors
To other worlds
Helping those planets

That's our future
And actually it has already happened
Because time doesn't exist.
