You are one of a dying breed, who walk upon this Earth.  
It's up to you to keep us alive and I promise you it is  
Worth it.

You have the face of a Goddess and a soul so divine.  
You  
Must go on fighting, to keep our race alive.

There will be evil in your way, but tell me that you'll  
Pure stay.

The darkness is in life my child and there is light. And  
You You are one of the lights, the light of lights.

Alien genes destroy our breed, Alien genes they  
betray.  
So I hope now woman, with a White Man you will stay.

The child you bare will be so fine, you bare a child of  
Mine. So promise to go on, to keep the race alive.

There will be evil in your way, but tell me that you'll  
Pure stay.

The darkness is in life my child and there is light. And  
You You are one of the lights, the light of lights.
