It's a dream
For you and me
This is not reality
Illusions everywhere
Remind this
For a fear

It's a dream
For you and me
This is not reality I feel
In my dream
True illusions everywhere
Take you to another sphere
With me
It's a dream

It's a dream
For you and me
This is not reality I feel
In my dream
In my dream

It's a dream
For you and me
This is not reality I feel
In my dream
True illusions everywhere
Take you to another sphere
With me
It's a dream

It's a dream

It's a dream
For you and me
This is not reality I feel
In my dream
In my dream
In my dream
