"Friends In The Distance"

Visit "[Friends In The Distance](#)" on MotoLyrics.com

Friends in the distance, some kind of strangers up
close
Lovers of the last dance, we watch that flame burning
low
Who's the winner or the loser, it's too dark for me to
see
Only friends in the distance, strangers in danger, you
and me

Chorus:

You wanna talk about it, I wanna walk around it, I walk
the night alone
There's nothing right about it, you're running right
around it
Wait out the night alone

Friends in the distance, some kind of strangers up
close
Lovers of the last dance, we watch the flame burning
low

(Solo)

(chorus)

Friends in the distance, some kind of strangers up
close
Lovers of the last dance, we watch that flame burning
low
Tell me who's the winner or the loser, it's too dark for
me to see
Only friends in the distance, strangers in danger, you
and me
Only friends in the distance, strangers in danger, you
and me, you and me

(Friends in the distance, friends in the distance)
