Don't tell me we're goin' down a oneway
Hear me, somebody, would ya like to
Take the time to find ourselves a new way,
Hear me, somebody, could ya try to?
Ah, changes stranded in fear
But keep on believin' keepin' it clear
Good times will fin'lly arrive
It's been so long, come along, come on along.
Don't tell me we got no right to be choosin'
Hear me, somebody, are ya sure now?
If you think the way we're goin' ain't confusin'
Hear me, somebody, take a look now.
Look at the changes stranded in fear
But keep on believin' keepin' it clear,
Good times will fin'lly arrive,
It's been so long, come along, come on along.
Don't tell me that it's gettin' down to bleedin'
Hear me, somebody, where are we goin'?
When ev'ry day has the answer to the question
Don't ya know it's been showin'?
Ah, changes stranded in fear
But keep on believin' keepin' it clear
Good times will fin'lly arrive
It's been so long, come along, come on along
Come on along
