Passing through i bring love to you  
Let me see your smile  
Though it seems so untrue, i'm standing  
Right here beside you  
Can i stay a while

I been too long feeling kinda low  
Help me to follow through  
From the start  
'cause i can't seem to find a way to go  
Is it for me to know my mind  
In a place that holds no time  
For a little while  
'cause soon we must part

Passing through i bring love to you  
Let me see your smile  
Though it seems so untrue, i'm standing  
Right here beside you  
Can i stay a while

Firefly dance for you and i, and don't go  
Leaving us hollow through  
From the start  
'cause moonlight don't seem right  
When you're alone  
Is it for you to know my mind  
With a hope that you might find  
Me with you sometime  
But, soon we must part

Passing through i bring love to you  
Let me see your smile  
Though it seems so untrue, i'm standing  
Right here beside you  
Can i stay a while
