Too tough to handle, too much to hold  
She goes round and round and round and round, the  
girl runs hot and cold

What you gonna do when she's tired of you?

Reputation, mmm, reputation

Run like the devil or sink like a stone  
You'll go down and down and down and down and wind  
up on your own

You're not the first to fall, it's happened to us all

(Solo)

She's too tough to handle, too much to hold  
She goes round and round it's all over town, but you  
just can't let her go

She's got a reputation, everybody's talkin' 'bout my  
baby
