"Rough Edges"

If I had my way tonight,
I would surely change your mind
You might be surprised at what you see
I know I don't look the part,
Don't turn it off before it starts
I can hear your heart talkin' to me

Chorus:

I'm not a stone that's been polished and shined
I'm not the diamond that you had in mind
I can't hide it, you get what you see
I've got a lot of rough edges on me

Carnegie or Albert Hall,
You don't need no crystal ball
You know you'll never catch me in that scene
I like my music way up loud, the house is rockin'
When I go out
The midnight hour that's where I want to be

(chorus)

(Solo)
