### "Special Care"

Visit "[Special Care](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Ten wheels rolling through a lonely night  
I know what I'm feeling  
And it's not quite right  
Look out the window could be anywhere  
I miss that thing that only we could share

Special care  
The kind you can't get  
Just anywhere  
Special care

Oh my heart is surley breaking now  
Sixteen days before I'm back in town  
I'm caught between a rock and a hard place  
I'd give anything just to see your face

Bringing me that special care  
The kind I can't get just anywhere  
Bring to me that special care

Ten thousand miles through some  
Lonely days  
It's enough to change some of these  
Gypsy ways  
When you're caught between somewhere  
and another place  
I'd give anything just to see your face

Bring me that special care  
The kind I can't get just anywhere  
Bringing me special care
