I've been thinking 'bout killin' myself  
Take a bath and slit my wrists  
catch a train, jump off a bridge  
or overdose on sleeping pills, yeah

wouldn't mind eternal rest  
not have to worry 'bout this and that  
take away the pain in chest

seems nice, controlling fate but  
that's such a ego thing to do  
after everything that we been through

oohoo, everything is everything  
yeah, everything is everything

don't worry baby  
it's serious today was just a downer and nothing else

don't worry mama  
it's serious today was just a downer and nothing else
