

## Poco "A Fool's Paradise"

Visit "[A Fool's Paradise](#)" on MotoLyrics.com

I don't care what your man is sayin', he don't know what  
it's all about  
He says one thing when you're lookin' and another  
when you turn around  
Don't get caught up in emotion and how good it used to  
be  
Just remember there's a reason, that's the way it has to  
be

Chorus:

Now don't you believe him, just take this advice  
And don't look for rainbows in a fool's paradise

High up on a distant mountain, he sits lookin' down on  
you and me  
Says it doesn't really matter to him, he knows how it's  
got to be  
See it in his way or forget it, he don't need to come  
around  
Anytime he's got the feelin', he knows that he's got the  
sound

(chorus)

(Solo)

I don't care what the man is sayin', he don't know what  
it's all about  
He says one thing when you're lookin' and another  
when you turn around  
Don't get caught up in emotion and how good it used to  
be  
Just remember there's a reason, that's the way it has to  
be

(chorus)

No you just can't believe him, so take this advice  
And don't look for rainbows in a fool's paradise
