"Another Time Around"

Visit "[Another Time Around](#)" on MotoLyrics.com

Did you hear that telephone ring?
You'd better get ready and pack your things
It's time to be going out again
Kiss the ladies goodbye, wipe the tears
From their pretty eyes.
You'll be back sometime, but you don't
Know when
Moving on and on through the country
Moving on and on in the towns
Things are getting better in the towns for
You and me.
I wanna make it last another time around.

About an hour down the road
Remember how good it was to go
Chalk it up to the best of all times
And all those hours on the plane,
A million miles on your brain.
No cause to wonder if it's still a good time
Moving on and on through the country
Moving on and on in the towns,
Things are getting better in the towns for
You and me.
I wanna make it last another time around.

You hear the telephone ring
You'd better get ready and pack your things
Oh it's time to be going out again.
Kiss the ladies goodbye, wipe the tears
From their pretty eyes
You'll be back sometime but you don't
know when
Moving on and on through the country
Moving on and on in the towns
Things are getting better in the towns for
You and me
I wanna make it last another time around
I wanna make it last another time around
