(J. Messina, M. Brady)

(lead vocal: Jimmy Messina)

Oh the world has got its problems, they're comin' into  
view

And girl I know that we will surely do what we can do  
But while we're in the midst of changing darkness into  
light

Gonna be beside you, to keep you warm at night  
And I'll be lovin' you baby, lovin' you every minute of  
the day

Oh, now recently it's clear to me, what makes the world  
uptight

Is the lack of joy we have, for the love of what feels  
right

But you and I are makin' the change, along with all our  
friends

And it feels so good to let you know, for me it all begins  
When I'm lovin' you baby, lovin' you every minute of the  
day

I'll be lovin' you baby, lovin' you every minute of the  
day

(Solo)

Ohh, jobs are gettin' fewer, and the rents are on the  
rise

When I look at what it costs to live, I can't believe my  
eyes

But you and I are not alone, the whole world is feelin' it  
too

And I'm gonna do the best I can, and while I'm here  
with you

I'll be lovin' you baby, lovin' you every minute of the  
day

I'll be lovin' you baby, lovin' you every minute of the  
day

Yeah, lovin' you, I'll be lovin' you baby, I'll be lovin' you  
every minute
