cryin' dosen't ease the pain
when the fire is gone
when the weak break the strong
theres no danger
when a heart is cold
but if i say alone
mine will soon turn to stone
i know (girl your not the only one)
whos looking for some one to hold

the look in your eyes
ain't the same any more
something has changed deep in side

we both know it's right
what have we waited for
there's no turing back
'cause with you ive got nothen to hide

sleepin' on a bed of lies
i've been lonly too long
now the hurt is all gone
you were waiting
for meto come around
how could i be so blind
not to see you in your mind
and your heart(you've always been the only one)
belivin' in me all along

the look in your eyes
ain't the same any more
something has changed deep in side

we both know it's right
what have we waited for
there's no turing back
'cause with you ive got nothen to hide

the look in your eyes
ain't the same any more
something has changed deep in side

we both know it's right
what have we waited for
there's no turing back
'cause with you ive got nothen to hide
