You better think twice  
About leaving me behind  
Make up your mind  
About what you're gonna do

You know it ain't easy  
When your love huts night and day  
Oh, how you please  
When I hear you call my name

Breathlessly I await the moment to surround you  
Do not fear the song that makes you sing  
It will offer you wings to fly away  
But do expect to land if you can't stay

You better think twice  
About leaving me behind  
Make up your mind  
About what you're gonna do

You take my advice  
Oh woman, you got to choose  
Take a little time  
You got nothing more to lose

In time, you know my melody will haunt you  
Your words can make it rhyme so easily  
It ain't no sin, when love is real  
So come on and let me know just how you feel

You better think twice  
About leaving me behind  
Make up your mind  
About what you're gonna do

You know it ain't easy  
When your love huts night and day  
Oh, how you please  
When I hear you call my name

Breathlessly I await the moment to surround you  
Do not fear the song that makes you sing

It will offer you wings to fly away  
But do expect to land if you can't stay

You better think twice  
About leaving me behind  
Make up your mind  
About what you're gonna do

You take my advice  
Oh, woman, you got to choose  
Take a little time  
You got nothing more to lose

In time, you know my melody will haunt you  
Your words can make it rhyme so easily  
It ain't no sin, when love is real  
So come on and let me know just how you feel
