Oh what a feeling, the way you make me feel.  
No one but you could make me feel so special.  
Wonderful moment, and it's no make believe.  
A dream come true may only happen once in a lifetime.

Promise you're never leavin' baby.  
The magic's in the way you move.  
I need your rhythm right beside me.  
Oh say that you'll be here to guide me.  
Hold me, stay with me,  
Take me in your arms, lead me to the right.

Make it last forever, this dance of love together.  
When I'm close to you I feel your heartbeat.  
Please make it last forever, this dance of love together.  
When you're near to me, the magic happens.  
Stay with me.
