

Podunk "Home"

Visit "[Home](#)" on MotoLyrics.com

There is a road
It's not to far from here
That's where i first met love
It's been following me for years
And she was smiling
And she was laughing

There is a place
It's not to far from here
That's where we lost our faith
That's where we lost our innocence
And she was smiling
And she was laughing

And we thought we knew it all
And we were flying so high that we could not fall
But i'll never forget the news that day

The look on her face
Was something that i won't soon forget
The feeling in my soul scared me half to death
And she was crying
And she was crying

And we thought we knew it all
And we were flying so high that we could not fall
But i'll never forget the news that day

And baby is beautiful
Made from the deepest love
Baby is beautiful
It's time to take her home

There is a place down on old city road
That is where we live
That's the place we call home
And we are smiling
And we are laughing
