\*Yogi B\*

Oh baby bring it on, Poetic Ammo for the 2G  
Landslyde, Point Blanc, C.Loco, Yogi B, Mad Stacz word  
up

Chorus \*Yogi B\*

The price I pay for the life I choose  
I'm ahead of my time, don't you know that, win or lose  
In it for the love and don't you confuse  
Money, fame and honeys cos I paid my dues

\*Yogi B\*

I'm above it all money, politics, confrontation  
Don't you know that my ammunition be poetic  
Some forget it, bringin' on static  
I take em' all out, the undisputed  
Subsonic Supreme, now hear the ladies scream  
Honeys be like butter so I turn em' to cream  
Mad love, nationwide everytime I ride  
Ammo fans keepin' me feelin' good inside  
So I destroy anyone who come tested  
Cos I had enough of my development arrested  
Now ya bloodsuckers gonna feel my stake  
Cos all I wanted was my piece of the cake, son!

(Too much of sacrifice in this game)

\*Landslyde\*

Transcendence, when I preach my rhyme with this  
sentence  
You don't wanna mess with Landslyde I got vengeance  
Endorsements I be running fast with my horsemen  
Now I got bills and it's time for me flossin'  
HUH! I'm talkin' 'bout my long term glory  
Whut! Secured myself my inventory  
I would not wanna be in your shoes if it is you  
Wannabes faking the slang you be a fool  
Cos you be thinkin' I'll be gone without a notice  
It's bogus, cos I be still around like George Lucas  
The colour notes, floats the currency controls  
The name, achievement the status unfolds

Chorus x2

Break \*Yogi B\*

Pretty boy, me know for a long long time now  
You ought to go for yours but you want to go for mine  
All your life you find hard to define  
How we get em' up, hit em' up and be uh, so superfine

\*Point\*

I drop the deadly wordplay strikes ya' at your  
ventricular  
Magnetic decibels bursting through them molecular  
Structure, False prophets' rapture,  
Non-believers fracture, credibility I'm a capture  
Stormbringer the second coming I'm a reign supreme  
Prime directives makin' cream, the masses scream  
Theoretical, individual, arch-rival  
Spittin' venomous rhymes shit be homicidal  
Camouflage, Mafioso fam livin' large  
Entourage, elusive sight makes mirage  
Progressive inclination to a higher state equals  
troubleshooting  
If you smell what Avatar's cookin'!

Chorus 2x

(Sacrifices, you make sacrifices)

\*C.Loco\*

You be expendable, use and abuse you're deletable  
Drag your icon to the trash click you're minimal  
Virtually non-existent social outcast  
Like unknown and ugly mutants scream no contest  
Nevermind me as I take what you got  
Leftover personality you're lame no matter what  
What you're thinkin', I ain't easy to understand  
My brain matter complex in command  
My Ammo, livin' large update my motto  
Just follow, a day at a time never so slow  
You don't know, visually engaging cos I'm Loco  
You're so so, try to diss me is a no no

Chorus 2x

(You can't understand us 3x you don't understand us)
