"Onwards Onwards"

Onwards, onwards, never stopping
The years roll by like the buildings and trees

When one day you sit up
And you look,
Question all the turnings you took.
Well then you realise your not, in control,
Of feeling wells up to plunge off the road.

Oooh...

Please, please help me
Have faith in our cause
The fact is, we've driven through
Oh so much worse.

And I can't blame you for
My, lack of strength.
But I can't see how we might
Make amends.

And what the hell have I done?
Oh what the hell haven't I done?

Oooh...
