Dreams do come true
If you have the heart
To let them thru
If you have the hope
They'll come to you
Dreams do come true

Dreams do come true
Even if you think
You've lost your way
And you wanna quit
And run away
Still dreams do come true

No one knows how long you have to wait
To find, the answer
But a burning desire, deep in your heart
Must surely bring your answer

For dreams do come true
If you pray and thank the lord above
If you give the world all your love
Your dreams will come true
