It's Christmas  
It's Christmas  
And the carolers are singing at my door  
It's Christmas  
It's Christmas  
And I'm feeling so much younger than before

Presents wrapped beneath the tree  
Hey! Alright! There's one for me  
Underwear? Santa don't you care?

The largest flakes I've ever seen  
Fall to earth creating dreams  
Of snow and ice  
A winter's paradise.

The first star in the sky  
How bright you shine tonight  
Where you there the night the little babe was born?

It's Christmas  
It's Christmas  
Let's raise a glass and toast the coming year  
It's Christmas  
It's Christmas  
It's a joyful celebration  
For every generation  
A special feeling everyone can share  
You can feel the Christmas spirit in the air
