Welcome to my city
The girls are so damn pretty
Such a pity, they don't come for free

Just call me pimp daddy
I'll roll ya one big fatty
I think your gonna like hangin with me
Chorus
Welcome to my city of sin
I believe your gonna fit right in
Yes this is my city of sin
Your first lesson is about to begin
Now you're living in the city of sin
You don't mind if i call you friend
Once you enter you can never get out of here
Welcome to hollyweird

I'm the king of the streets
I own the cops, the junkies and freaks
It's human wasteland i call home

Grow your hair to your shoes
Trust me boy you just can't lose
Soon this be the only life you've ever known

Chorus (solo)
