Sirens are everywhere  
Nowhere to run  
The sound is deafening  
What has been done?

Where will you go?  
To whom will you turn?  
In the school of life  
Will you ever learn?

It's okay... not to be okay... right now  
It's just a cloud covering the sun  
The rainbow is on it's way  
It's just a cloud covering the sun.

Wallow in sadness  
Then sift through the mire  
Wake up from emptiness  
Still feeling tired.

Where will you go?  
Who will you see?  
When the dust settles,  
Who will you be?

It's okay... not to be okay... right now  
It's just a cloud covering the sun  
The rainbow is on it's way  
It's just a cloud covering the sun.

You can choose Light  
Or you can choose gloom  
Will you be satisfied  
Alone in your room?

Breathe deep the chaos  
When nothing makes sense  
Overcome the illusion  
And build your defense

It's okay... not to be okay... right now  
It's just a cloud covering the sun

The rainbow is on it's way  
It's just a cloud covering the sun.
