Oh, I know that You'll be watching over me

Your shining light has changed my life
It's like I've found my way home
I know You're near, hear You loud and clear
I could live on this feeling alone
Everywhere I go You are right there beside me
Anytime of night or day

Your name is on my lips, Your love I can't resist
Got to be with You wherever You are
I want You memorized so when I close my eyes
All I have to do is keep loving You by heart

I don't have to see, see You to believe
That Your not going away
I know You'll be watching over me
You're the shelter that's keeping me safe
I know Your arms they can reach out to hold me
Even when I'm feeling alone

Your name is on my lips, Your love I can't resist
Got to be with You wherever You are
I want You memorized so when I close my eyes
All I have to do is keep loving You by heart

Comes naturally like every breath I breathe
Don't have to think it's second nature to me
I close my eyes and You are there with me
You know me, You see me, You hear me, You heal me

Your name is on my lips, Your love I can't resist
Got to be with You wherever You are
I want You memorized so when I close my eyes
All I have to do is keep loving You

Your name is on my lips, Your love I can't resist
Got to be with You wherever You are
I want You memorized so when I close my eyes
All I have to do is keep loving You by heart

I'm gonna be wherever You are

I love You with my heart and soul
I close my eyes, all I have to do
Is keep on loving you by heart

I'm gonna be wherever You are
I love You with my heart and soul
I close my eyes, all I have to do
Is keep on loving you by heart
