"Faith, Hope Love"

There's a lot of things we face
That seem to pull us down
There's a lot of tears and pain
That turn our world around

Seems the hammer always falls against us
At our weakest times
But I know a power that can heal
The wounds it leaves behind

Faith, hope and love
Is more than enough when times get tough
Faith, hope and love
Will tunnel through what's in front of you
If you just trust in faith, hope and love

There's a lot of hurt and sorrow
That can cloud the bluest skies
Still there's hope in tomorrow
If we just close our eyes
To every fear we must face
As we learn to embrace

Learn to embrace faith, hope and love
Is more than enough when the times get tough
Faith, hope and love
Will tunnel through what's in front of you
If you just trust in faith, hope and

You can trust, trust, trust
You can trust, trust, trust
In faith, hope and

In faith, hope and
In faith, hope and
In faith, hope and
In faith hope and
You can trust, trust, trust

You can trust
You can really, really trust
In faith, hope and

In faith, hope and
In faith, hope and
In faith, hope and
In faith

Just a little faith will pave the road before you
To see you through

Faith, hope and love
Is more than enough when the times get tough
Faith, hope and love
Will tunnel through what's in front of you
If you just trust in faith, hope and

Faith, hope and love
Faith, hope and love
Will tunnel through what's in front of you
If you just trust in faith, hope and

If you just trust in faith, hope and
If you just trust in faith, hope and love
