Nothing feels better than my baby's arms
They've been around me a long time
Nothing feels better than some good news
Makes you glad to face the new times

Tell ya nothing's better when there's no need to look
'Cause you know who's there
I smile the world over when I think of the past
How we passed all the test through the good and the
bad
And that's why I wanna say right now

No, I ain't got nobody else in mind
I know it's you
No, I ain't got nobody else in mind
I know it's you

Home is a castle you've built in my mind
I'm at home anywhere, anytime
Peaceful & patient, easy-taking time
It's so nice to have a simple mind

Tell ya nothing's better when there's no need to look
'Cause you know who's there
I smile the world over when I think of the past
How we passed all the test through the good and the
bad
And that's why I wanna say right now

No, I ain't got nobody else in mind
I know it's you
No, I ain't got nobody else in mind
I know it's you
