I never needed you for
Anything at all
And when the light comes
You know
I will be vanished
And that's the way i like it
The light's too bright here

Hello now it's time to go
I got everything i need
And then some
Hello now it's time to go
I got everything
Everything i need

I could have asked ?
Anything at all
I'm feeling slightly wounded
Won't you kiss it better?
Yeah that's the way i like it
The pain's not mine now

Hello now it's time to go
I got everything i need
And then some
Hello now it's time to go
I got everything
Everything

Hello now it's time to go
I got everything i need
And then some
Hello now it's time to go
I got everything
Everything

Everything
Everything i need

To make me
So happy

Without you

To make me
So happy
Without you

To make me
So happy
Without you

To make me
So happy
So happy

There's nothing going on here
Not a thing at all
Go on and call me jaded
It only makes me bitter
And that's the way i like it
Cos i've got mine

Hello now it's time to go
I got everything i need
And then some
Hello now it's time to go
I got everything
Everything
