Looking back at all the time we've spent
I wouldn't trade it for the world,
You're my best friend.

And even when the times you've made me mad
You knew I've always got your back,
Until the end.

All of the times, that we ran wild and free,
And all the nights, you fell asleep next to me
Ohh,

Well they don't call it friends for nothing,
You taught me how to stand for something,
Stand with me...

They don't call it friends for nothing,
You taught me how to stand for something,
Stand with me...

Remember when we were just two kids
And my mother wasn't quite convinced, that you were
cool.
The exception to the rule

But just look at you now
You're making me so damn proud, with how you are,
And everything you do.

And All of the times, that we ran wild and free,
All the nights, you fell asleep next to me
Ohh,

Well they don't call it friends for nothing,
You taught me how to stand for something,
Stand with me...

They don't call it friends for nothing,
You taught me how to stand for something,
Stand with me...
