Take a love song & sing it
Take a warm smile & wear it
& take all of the love I have just for you
& you'll find that it helps dreams come true
For you & me, too

Take a glad dream & build it
Take a strong heart & use it
Take the best of life's gifts & you'll see
When you do how the rest of the goodness in life
Finds it's own way to you

Take a love song & sing it, yeah
Take the best of life's gifts & you'll see
When you do how the rest of the goodness in life
Finds it's own way to you

(Take a love song & sing it)
Take a love song & sing it everywhere
Let it fill the air
(Take a warm smile & wear it)
Take a warm smile & wear it
You got to wear it
(Take a glad dream & build it)
Take a glad dream & build it to the sky
Never, never lose it
(Take a strong heart & use it)
Take a strong heart, use it
'Til the day you die
