A heart can only break so much
Before it has to bleed
I want to split myself open
And bleed it out for you
Until the sharp pain washes away
To dull throbs to nothing
I know these things should not be said
The voices in my head

But this is the only remedy
I know that will extinguish this
Burning fire inside my heart

How many times will i be beat?
I'll die before they break me
Or was i not meant for this earth?
To bleed and bleed again
I want to split myself open
And bleed it out for you
I know these should not be said
And i am so sorry

But this is the only remedy
I know that will extinguish this
Burning fire inside my heart

It's you
And me
And you
And a knife

It's you
And me
And you
And a knife

Blood, right
Blood, right
Blood, right
It's my blood spilling tonight
Blood, right

Blood, right
It's my blood spilling tonight
And it's for good this time

'cause this is the only remedy
I know that will extinguish this
Burning fire inside my heart

It's you
And me
And you
And a knife

It's you
And me
And you
And a knife

It's you
And me
And you
And a knife

It's you
And me
And you
And a knife
