

Poison Idea "Castration"

Sexual self gratification, fantasy,
Fall in lust with the arcade, not me,
Emotionally exhilarated for one night,
Show your kids how tough you are, beat your wife,
Dead end go getter talk shit by the mouthfull,
They're planning against you, and you cant even see,
Women, guns, female supremacy,
Drunk abuse should not be done with full devotion,
Set yourself up, castration,
Comic book hustler, you think youre so macho,
Your girlfriends waiting for you with a broken bottle.
