

## **Poison Idea "Discontent"**

Visit "[Discontent](#)" on [MotoLyrics.com](https://MotoLyrics.com)

So much discontent in this hatefilled place  
How could you want a master race?  
We all got to learn to help one another  
You are my sister, you are my brother!

Open up your eyes and see, people living in harmony  
Listen Nazi Never Again!  
Open up your mouth and scream, some of us still have  
a dream  
Listen Nazi Never Again!  
Open up your ears to peace, will this bullshit ever  
cease?  
Listen Nazi Never Again!  
Open up your mind and think, the shit you spew really  
stinks  
Never Again!

We're members of the same nation  
One suppressing opposition  
One way we can all be free  
Fight the REAL Enemy!

Open up your eyes and see people living in harmony  
Open up your mouth and scream, some of us still have  
a dream

So much discontent in this hatefilled place  
Listen Nazi Never Again!  
How could you want a master race?  
Listen Nazi Never Again!  
We all got to learn to help one another  
Listen Nazi Never Again!  
You are my sister, you are my brother!  
Never Again!
