Raised right-wing since you were born
It nothing new to me. Keep it in the family
Incest breed, what a fix, you're the casualty
Your eyes are too blind to see
Goose steps to cries of poor. Follow no more
Try to even the score. Enlisted at seventeen.
Can't see what I mean? Come on man use your brain
I hear you pack a gun
Ugly American
White bread fed. Gun rack head.
Your braincells and more are dead
I bet you voted republican and you got a sheet in your
closet
with holes out for eyes "yeah thats right"
You dress up at night. You're a big tough man
When you're with your friends
but when there's only one you run and hide
"four more years four more years"
that's what the brainwashed shout
Scream them down
Shut them out
Its really messed up. You and me made it that way.
Why do you torture so? Why don't you just let go?
