Aisha, aisha...

By myself, I'm not alive
She passes by, and I'm still here
She's like the sun between the clouds
In me - I have Aisha - Valid feeling

See how the years pass
Smiles of faces against faces
To you, I will give it all - my ending
my life, Aisha, if you want...

I will walk for you, until the end
The house that's on the line of the coast
I won't count the pains and tears
If only Aisha, you allow me to be.

Aisha, Aisha - Still whispering
Aisha, Aisha, What a woman
Aisha, Aisha, how do you feel
Aisha, ,Aisha, what a woman

Come over here, to me, angel face
G-d sent you to me
I will pick out warm rays of light for you
And plant light in date fields.

Oh, Aisha, Aisha, still whispering
Aisha, Aisha, Eyzo Isha

She is being cruel to me
My weakening strength
I stared at her, I called out her name
She alienates herself, She is difficult.
And I, I'm almost at a finish.
Take me G-d already

To you, for you, until the end
The house that's on the line of the coast
I won't count the pains and tears
If only Aisha, you allow me to be here.

Aisha, aisha...
