Why do your eyes paralyze me  
What makes me feel this way  
Just carry me away with silence and heartbeats  
As rapid thinking about your embrace  
and how it makes me feel  
I just want to feel this way forever  
Sleep on portraits painted as perfect as you  
Why have I been given the chance to fly  
When I'm not with you I feel lesser alone  
I remember your face imprinted on angels  
Your voice as beautiful as the sounds of waves  
crashing against my heart  
Time slows down when you look at me  
I'm infatuated with this infatuated with you  
It's so hard for me to understand why  
I hadn't found you before don't dull away  
hold my hand
