Why do your eyes paralyze me?  
What makes me feel this way?  
Carry me away with silence and heartbeats as rapid

Thinking about your embrace  
And how it makes me feel  
I just want to feel this way forever

Sleep on portraits painted as perfect as you  
Why have I been given chance to fly?  
When I'm not with you I feel lesser alone?  
Why have I been given chance to fly, away?

I remember your face imprinted on angels  
Your voice as beautiful as the sounds of waves  
Crashing against my heart

Time slows down when you look at me  
I'm infatuated with this, infatuated with you  
I remember your face imprinted on angels

It's so hard for me to understand  
Why I hadn't found you before?  
Hold my hand
